

## The digital transformation toolkit for driving project delivery during disruptive change

At Changefirst we know just how challenging it can be to deliver your change projects because we have been helping companies to do exactly that for almost 25 years.

But our more recent experiences with clients also tells us the way that you are being expected to deliver change is radically changing too due to:

- A truly exponential increase in the pace and volume of change projects
- A wholesale disruption of business models across all industries
- Senior executive teams hungry for information and insight into change process
- A need to deliver increasingly complex initiatives in a scalable way

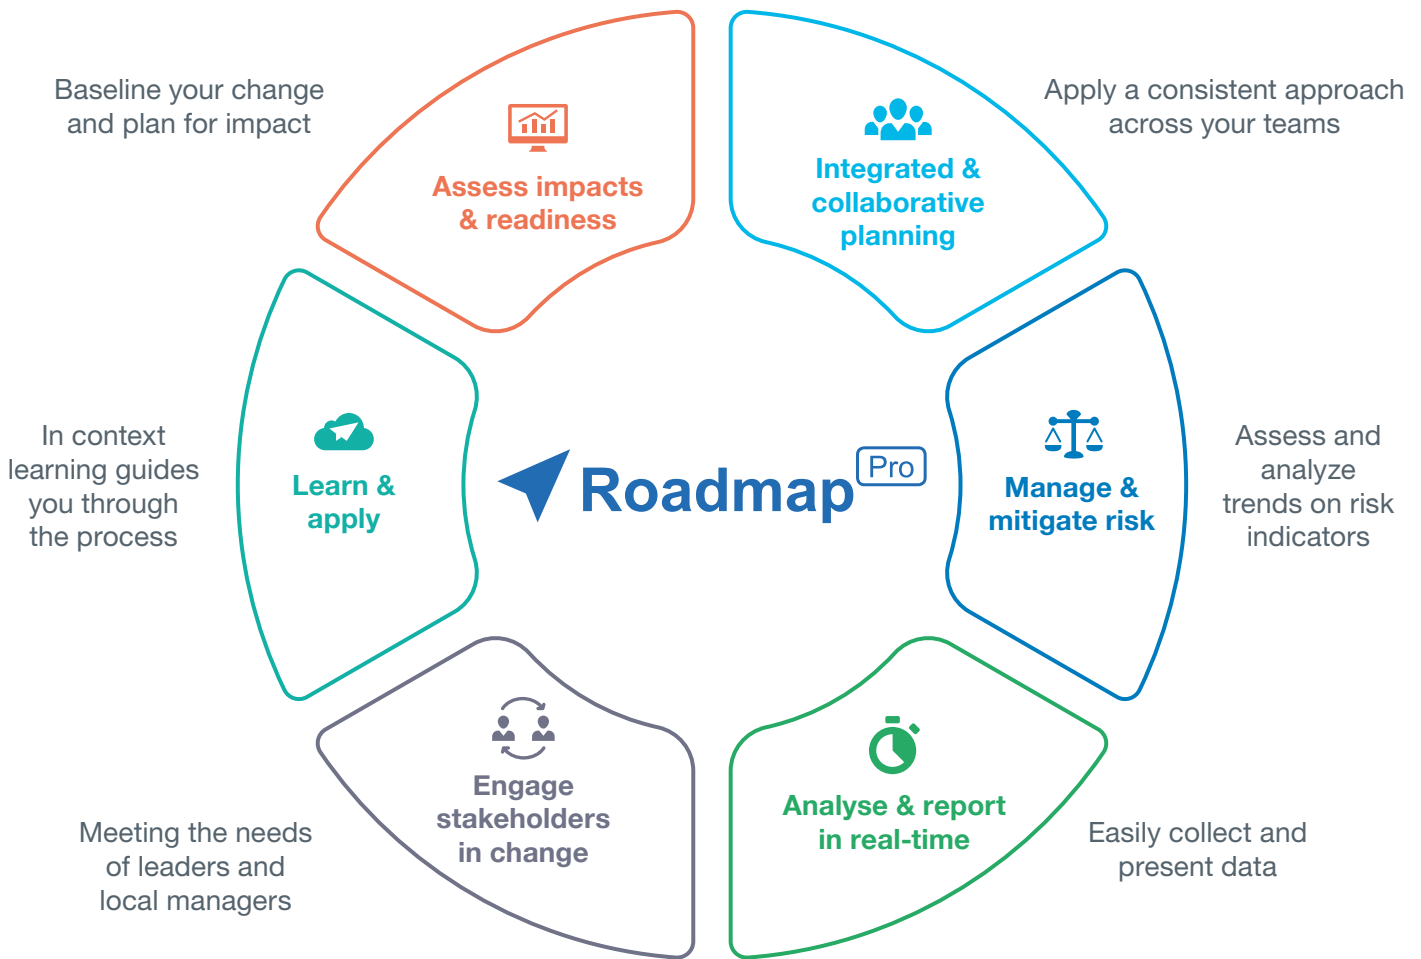

That is why we developed RoadMap Pro.

Based on our proven change management methodology, it is a completely new, dashboard driven digital transformation toolkit for organizations that must deliver their change projects quickly, comprehensively and cost-effectively.

### Overview

- Dashboard driven approach to delivering your change projects
- Step-by-step planner and visual guide to process
- Contextual learning as you need it
- Suite of 9 integrated planning, diagnostic and tracking tools
- Easy for your team to adopt, learn and apply
- Based on our proven PCI® approach to deliver change
- Integrates with your existing project management approach

# How Roadmap Pro works

## Key features of Roadmap Pro

### Single dashboard

Roadmap Pro allows your team members to manage all of their projects in one place

### Contextual learning

Learning is on-demand and “as you go”, apply it at the point of need

### Step-by-step planner

Everything you need to build your change plan, including a visual guide to the entire process

### Powerful & integrated tools

Full suite of 9 fully integrated planning, diagnostic and tracking tools

### Proven process that integrates

Based on our proven PCI methodology used successfully by over 30,000 users across the globe, it integrates with PMI and Prince 2

### Collaborate across teams

Enable your teams to work together via shared dashboards

### Realtime data on projects

With our diagnostic tools and powerful reporting capabilities you can get project change data as you need it

### Take a global approach

Allows global teams to work together quickly and easily
